ROLEPLAYING

A group of diverse RPG characters stands in a grand, golden-hued hall. In the background, a massive, glowing golden dragon with its wings spread wide dominates the scene. The characters include a dwarf with a large axe, a wizard with a long white beard and a staff, a red-skinned archer, a knight in full plate armor with a shield, and a woman in a blue and white robe holding a staff. The lighting is dramatic, with strong highlights and deep shadows, creating a sense of epic scale and adventure.

Triple Sleeve

INNER AND OUTER SLEEVES

Dragon Shield's new Outer Sleeves provide an extra layer of protection and customization options for TCG players. Triple sleeving cards wards off dust, dirt, and spills. Clear Outer Sleeves also preserve precious art sleeves, while Black Outer Sleeves allow players to quickly sleeve up and combine decks sleeved in different colors. Black Outer Sleeves also allow players to color code their deck by changing the color of their inner sleeves.

- Each package contains 100 sleeves.
- Outer Sleeves fit over cards that are already sleeved with standard size sleeves.

Black Outer Sleeves allow you to customize and color code frequently-used combo pieces and save time during the game.

Three sleeves mean triple protection

Double-sleeving cards adds an extra layer of protection against dust, dirt, and spills. Triple-sleeving takes this to the next level. First, use a Perfect Fit inner sleeve, then a regular sleeve of your choice, and finally, an Outer Sleeve for complete protection. For maximum effect, sleeve openings should be opposite each other; if the Perfect Fit sleeve has its opening at the top of the card, the regular sleeve should have its opening at the bottom. When triple-sleeving, the middle sleeve's opening should be opposite to the other sleeves.

How to sleeve a Perfect Fit Sealable

1) Insert card $\frac{2}{3}$ into sleeve

2) Tuck in the tail

3) ...And seal!

The NOMAD™ is an outdoor and travel playmat that offers an elegant solution to playing outdoors and in typically inconvenient spaces.

The NOMAD opens like a book. Lift the elastic strap and open to reveal three rows of clear, sturdy pockets that hold your cards in place during play. The strap is then used to hold your deck in place while playing. Dedicate each row or section to suit your favorite TCG battlefield.

Embody the nomadic spirit of adventure and play with your friends wherever you are.

Play on the go

On the bus, the train or even while sitting on the back of a flying dragon. The NOMAD keeps your cards in the game and on the playmat.

Picnic-friendly

The NOMAD lets you play outside on windy days and provides an even and sturdy playing surface regardless of available table space.

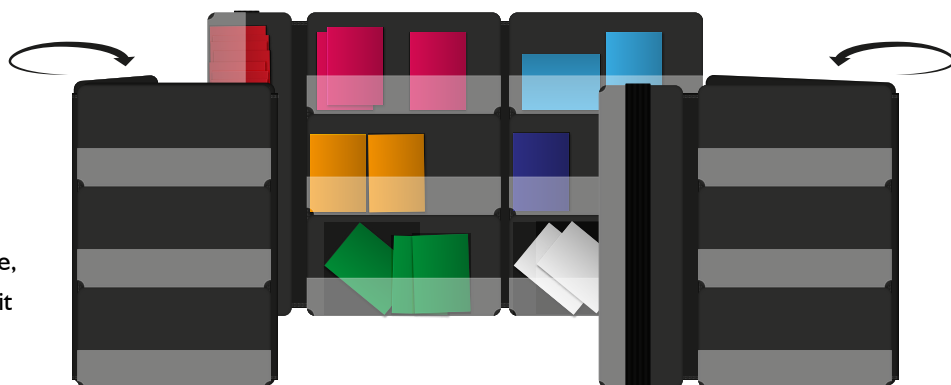

Move the game

The stiff playmat can easily be picked up and moved to another location – even with cards and counters still on the playmat! Need to move on? Quick save.

Three different playmat widths

Depending on your available space, you can limit the playmat size to fit on a small plane- or train table or on your lap.
